Dear Applicant:

The Underground Storage Tank (UST) Branch has received your current NELAP accreditation submitted on June 30, 2016. We have updated our database to reflect your expiration dates from June 30, 2016 to June 30, 2017.

This above certification is intended for the use of the Kentucky UST Branch. The approval is based on accreditation by either The American Association for Laboratory Accreditation (A2LA) OR by an approved state to accredit environmental laboratories in accordance with the National Environmental Laboratory Accreditation Program (NELAP) requirements and standards. Approved laboratories must be certified to conduct **all required analysis** using the acceptable methods listed in tables A and B of 401 KAR 42:060 and 401 KAR 42:070. For other analysis directed by the UST Branch not listed in tables A and B of 401 KAR 42:060 and 401 KAR 42:070; the laboratory performing the directed analysis must be currently accredited by either A2LA OR by an approved state to accredit environmental laboratories in accordance with the NELAP requirements and standards. The UST Branch does not regulate or certify those laboratories providing analysis of waste required by an accepting facility.

More information, including the UST Branch regulations, outlines, forms and updates, can be found online at <http://waste.ky.gov/ust>. If you have any questions regarding this letter, please contact me at 502-782-6483.

Sincerely,

Cheryl Yunt
